

interpolation::tcubicspline
_initinterp

```
graph LR; A["interpolation::tcubicspline  
_initinterp"] --> B["spline"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is light gray with a black border and contains the text 'interpolation::tcubicspline' on the top line and '_initinterp' on the bottom line. The right box is white with a black border and contains the text 'spline'. A dark blue arrow points from the right side of the gray box to the left side of the white box.
