

interpolation::tcubicspline
::init

```
graph LR; A[interpolation::tcubicspline::init] --> B[interpolation::tcubicspline_init]; A --> C[interpolation::tcubicspline_initint];
```

The diagram illustrates a function call. A gray box on the left, labeled 'interpolation::tcubicspline::init', has two blue arrows pointing to two white boxes on the right. The top white box is labeled 'interpolation::tcubicspline_init' and the bottom white box is labeled 'interpolation::tcubicspline_initint'.
