

```
camb.model.CAMBparams.set  
_dark_energy
```

```
graph LR; A[camb.model.CAMBparams.set_dark_energy] --> B[camb.baseconfig.dll_import]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text `camb.model.CAMBparams.set_dark_energy`. A blue arrow points from the right side of this box to the right side of another rectangular box on the right. This second box is white and contains the text `camb.baseconfig.dll_import`. Both boxes have a black border.

```
camb.baseconfig.dll  
_import
```
