

fileutils::readstringfunc

```
graph LR; A[fileutils::tfilestream::readstringitem] --> B[fileutils::readstringfunc];
```

A diagram showing a call from `fileutils::tfilestream::readstringitem` to `fileutils::readstringfunc`. The call is represented by a blue arrow pointing from the right box to the left box. The left box is shaded gray, and the right box is white.

fileutils::tfilestream
::readstringitem
