

object

```
graph BT; A["getdist_tests.test_distributions.Test2DDistributions"] --> B["object"]
```

A diagram illustrating an inheritance or relationship. A light gray box at the top contains the word "object". A dark gray box at the bottom contains the text "getdist\_tests.test\_distributions.Test2DDistributions". A blue arrow points vertically from the top of the dark gray box to the bottom of the light gray box, indicating that the class in the dark box inherits from or is a type of the object in the light box.

getdist\_tests.test  
\_distributions.Test2DDistributions
